

Health Zone

Nurse Practitioner Led Clinic

Full Time Registered Nurse

The Health Zone Nurse Practitioner Led Clinic (HZNPLC) provides primary healthcare services to residents within London, Ontario.

Our vision is to ***“Improve the health equity and well-being of women, children and families who have limited access to primary health care services.”***

We are currently looking to fill a **permanent 1.0 FTE RN** position starting **September, 2017**.

The successful candidate will be able to work independently as part of an interdisciplinary team, providing high quality professional nursing care to clients, consistent with the vision of the Health Zone Nurse Practitioner Led Clinic and the Standards of the College of Nurses of Ontario (CNO).

ROLES AND RESPONSIBILITIES

- Performs nursing assessments, nursing treatments, health education/counseling and other clinical activities according to CNO standards of practice for RNs.
- Responsible for overseeing and administration of immunizations and associated programs offered at HZNPLC, in conjunction with other staff.
- Responsible for ensuring that HZNPLC maintains the highest level of infection control practice in all areas.
- Participates in prevention & chronic disease management through education, monitoring and instruction of self-management techniques.
- Development of individual & group education programs targeting various topics such as chronic disease prevention and management, prenatal and infant wellness programs.
- Integrates appropriate community resources in education processes.
- Writes or assists with grant proposals as required.
- Supervises nursing students and participates in the education of other students.
- Contributes where necessary to evaluation processes and analysis of data
- Other Duties as assigned
