

Health Zone

Nurse Practitioner-Led Clinic

Located At: 230 Victoria Street, Unit 230
London, ON N6A 2C2

Director

Health Zone Nurse Practitioner-Led Clinic

Health Zone Nurse Practitioner Led Clinic (NPLC) is seeking to add 2 board members with a strong health equity and systems transformation lens to our volunteer board. We are specifically seeking a Nurse Practitioner for one of these roles. Individuals with experience in the health care sector, with non-profit management experience are encouraged to join our board. Preference will be given to those with business development and human resource experience.

Health Zone is a dynamic inter-professional health care team delivering high quality, equity-oriented health care to people who face barriers to health and social care. Located in London, Ontario, and established in 2011, we provide comprehensive primary health care to a growing and diverse population. Our primary mandate is to serve women, children, and individuals/families living in marginalized conditions and/or through transitions, including newcomers.

We do our work building on strong relationships with community partners and guided by a set of values that emphasize responsiveness to community, innovation, teamwork, and evidence-based practice. We provide both clinic-based and outreach services and programs, in London, Ontario.

If you have a strong health equity and systems transformation lens, we welcome you to apply for this exciting board position. Our board meets the 2nd Tuesday of each month starting at 5:30 p.m.

A 3-year term and contribution to committee work is expected.

Questions about this posting can be directed to Board Chair, Amy Horton, at HealthZoneNPLC230@gmail.com. Interested candidates should submit a covering letter and resume care of the Health Zone NPLC HR committee at HealthZoneNPLC230@gmail.com
